Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 2 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Drawings

1. Figures 3 and 4 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). Corrected drawings in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. The replacement sheet(s) should be labeled "Replacement Sheet" in the page header (as per 37 CFR 1.121(d)) so as not to obstruct any portion of the drawing figures. If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Figures 1 and 2 are described and labeled as "Prior Art." Figure 3 is described as prior art and Figure 4 is described as a general system (see Brief Description of the Drawings on page 11). However, they are not labeled as such. Applicant should provide consistency in the drawings by labeling all prior art figures as "Prior Art."

Specification

2. The disclosure is objected to because of the following informalities: the mathematical equation (20) on page 12 appears too small and is not completely legible. See 37 CFR 1.58(c) for the font size in a mathematical formulae.

Appropriate correction is required.

Allowable Subject Matter

3. Claims 1-50 are allowed.

4. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record fails to anticipate or make obvious the feature of the processing of the baseband signal deviation levels of the data units to output the most likely correct data units from the diversity radio signals.

Conclusion

5. With respect to the non-patent documents cited in the specification, if applicant wants these documents to be considered and cited of record by the examiner, then copies should be submitted along with an Information Disclosure Statement.

With regards to the patent 5,291,579 cited on page 3, this patent is directed to an electric humidifier. Applicant should check whether another patent number should have been cited.

6. This application is in condition for allowance except for the following formal matters:

The prior art figures in the drawings and the mathematical formulae in the specification needs correction as described above.

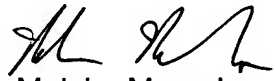

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Melvin Marcelo whose telephone number is 571-272-3125. The examiner can normally be reached on Mon-Fri 8:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Hassan Kizou can be reached on 571-272-3088. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
